assets/js	Template javascript files and jQuery plugins
assets/js/app.js	Main javascript file to setup jQuery plugins
assets/js/excanvas.js	HTML5 canvas fix for IE8
assets/js/gmaps.js	jQuery Google Map Library
assets/js/demo.gmaps.js	Google Map Samples
assets/js/jquery-1.8.2.min.js	jQuery library
assets/js/jquery.blockui.js	jQueryBlockUI Plugin
assets/js/jquery.cookie.js	jQuery Cookie Plugin
assets/js/jquery.peity.min.js	jQueryPeity Plugin
assets/js/jquery.pulsate.min.js	jQuery Pulsate Plugin
assets/js/respond.js	Library for responsive css fix for IE8
assets/img	Graphic files common for all color schemes and styles.
assets/bootstrap	Bootstrap framework
assets/bootstrap-colorpicker	Bootstrap Colorpicker Plugin
assets/bootstrap-datepicker	Bootstrap Datepicker Plugin
assets/bootstrap-daterangepicker	Bootstrap Daterangepicker Plugin
assets/bootstrap-timepicker	Bootstrap Timepicker Plugin
assets/bootstrap-toggle-buttons	Bootstrap Toggle Buttons Plugin
assets/bootstrap-wysihtml5	Bootstrap WYSIWYG Editor Plugin
assets/chosen-bootstrap	Bootstrap Chosen Plugin
assets/data-tables	Bootstrap Data Tables Plugin
assets/fancybox	jQueryFancybox Plugin
assets/jquery-knob	jQueryKnob Plugin
assets/flot	jQueryFlot Plugin
assets/font-awesome	Font Awesome
assets/fullcalendar	jQuery Full Calendar Plugin
assets/gritter	jQueryGritter Plugin
assets/jquery-slimScroll	jQuery Slim Scroll Plugin
assets/jqvmap	jQuery Vector Maps Plugin

assets/uniform	jQuery Uniform Plugin
psd	Contains logo PSD file
calendar.html	Calendar page
charts.html	Visual charts page
forms.html	Form stuff page
gallery.html	Gallery manager page
grids.html	Grids and portlets page
index.html	Login page
login.html	Index page
maps_google.html	Google map samples page
maps_vector.html	Interactive vector map samples page
tables.html	Data tables page
ui_elemenets_buttons.html	UI buttons page
ui_elemenets_general.html	UI general elements page
ui_elements_tabs_accordions.html	UI typography page
ui_elemenets_typography.html	UI tabs and accordions page

Template Structure

All main template files have fixed structure consisting of header (logo, quick search, top bar menu), sidebar menu, content and footer. All the html templates have easy to refer and meaningful comments:

```
<!-- BEGIN RESPONSIVE MENU TOGGLER -->
<a class="btn btn-navbar collapsed" id="main_menu_trigger" data-toggle="collapse" data-target=".nav-collapse">
<span class="icon-bar"></span>
<span class="icon-bar"></span>
<span class="icon-bar"></span>
<span class="arrow"></span>
</a>
<!-- END RESPONSIVE MENU TOGGLER -->
```

Header

The code of the header is constant in the HTML templates in every file. The header is one of the most important elements in the template. It contains beginning of the HTML document, simple configuration of the site and all the repeating elements (i.e.: logo, top bar menu, quick search). Inside the file there are many sections related to some key aspects of the template.

Top Menu Bar

Top menu bar contains quick links to Notifications, Inbox, System settings and user profile.

```
<!-- BEGIN TOP NAVIGATION MENU -->
<ul class="nav pull-right" id="top_menu">
  <!-- BEGIN NOTIFICATION DROPDOWN -->
  <li class="dropdown" id="header_notification_bar">
  </li>
  <!-- END NOTIFICATION DROPDOWN -->
  <!-- BEGIN INBOX DROPDOWN -->
  <li class="dropdown" id="header_inbox_bar">
  </li>
  <!-- END INBOX DROPDOWN -->
  <li class="divider-vertical hidden-phone hidden-tablet"></li>
  <!-- BEGIN USER LOGIN DROPDOWN -->
  <li class="dropdown">
  </li>
  <!-- END USER LOGIN DROPDOWN -->
  <li class="divider-vertical hidden-phone hidden-tablet"></li>
  <!-- BEGIN USER LOGIN DROPDOWN -->
  <li class="dropdown">
  </li>
  <!-- END USER LOGIN DROPDOWN -->
</ul>
<!-- END TOP NAVIGATION MENU -->
```

Quick Search

Quick search allows an easy searching from any page template.

```
<!-- BEGIN QUICK SEARCH FORM -->
<form class="navbar-search hidden-phone">
  <div class="search-input-icon">
    <input type="text" class="search-query" id="quick_search"
    toggle="dropdown" />
    <i class="icon-search"></i>
    <!-- BEGIN QUICK SEARCH RESULT PREVIEW -->
    <ul class="dropdown-menu extended">
    </ul>
    <!-- END QUICK SEARCH RESULT PREVIEW -->
  </div>
</form>
<!-- END QUICK SEARCH FORM -->
```

Sidebar

Sidebar contains 2 level menu navigation which allows to navigate across all the pages.

```
<!-- BEGIN SIDEBAR MENU -->
<ul>
  <li class="active">
    <a href="index.html">
      <i class="icon-home"></i> Dashboard
    </a>
  </li>
  <li class="has-sub">
    <a href="javascript:;" class="">
      <i class="icon-bookmark-empty"></i> UI Elements
      <span class="arrow"></span>
    </a>
    <ul class="sub">
      <li><a class="" href="ui_elements_general.html">General</a></li>
      <li><a class="" href="ui_elements_buttons.html">Buttons</a></li>
      <li><a class="" href="ui_elements_typography.html">Typography</a></li>
    </ul>
  </li>
  <li><a class="" href="forms.html"><i class="icon-table"></i> Form Stuff</a></li>
  <li><a class="" href="tables.html"><i class="icon-table"></i> Data Tables</a></li>
  <li><a class="" href="grids.html"><i class="icon-th"></i> Grids & Portlets</a></li>
  <li><a class="" href="charts.html"><i class="icon-bar-chart"></i> Visual Charts</a></li>
  <li><a class="" href="maps.html"><i class="icon-map-marker"></i> Interactive Maps</a></li>
  <li><a class="" href="calendar.html"><i class="icon-ok"></i> Calendar</a></li>
  <li><a class="" href="gallery.html"><i class="icon-camera"></i> Gallery</a></li>
  <li><a class="" href="login.html"><i class="icon-user"></i> Login Page</a></li>
</ul>
<!-- END SIDEBAR MENU -->
```

Content

Beginning of the main content of the page(refer to PAGE CONTENT comment).

```
<!-- BEGIN PAGE CONTAINER-->
<div class="container-fluid">
  <!-- BEGIN PAGE HEADER-->
  <div class="row-fluid">
  </div>
  <!-- END PAGE HEADER-->
  <!-- BEGIN PAGE CONTENT-->
  <div id="page" class="dashboard">
    <!-- BEGIN OVERVIEW STATISTIC BARS-->
    <div class="row-fluid stats-overview-cont">
    </div>
    <!-- END OVERVIEW STATISTIC BARS-->
    <div class="row-fluid">
    </div>
    <div class="row-fluid">
    </div>
    <div class="row-fluid">
    </div>
    <div class="row-fluid">
    </div>
  </div>
  <!-- END PAGE CONTENT-->
</div>
<!-- END PAGE CONTAINER-->
```

Footer

It contains mainly ending tags which were opened in the header.

Copyright

Contains sample copyright text

Scroll To Top

Button to scroll to the top of the page.

```
<!-- BEGIN FOOTER -->
<div id="footer">
  2012 &copy; Conquer. Admin Dashboard Template.
  <div class="span pull-right">
    <span class="go-top"><i class="icon-arrow-up"></i></span>
  </div>
</div>
<!-- END FOOTER -->
```

Javascripts

Javascript files loaded at the bottom to make page loading faster.

```
<!-- BEGIN JAVASCRIPTS -->
<!-- Load javascripts at bottom, this will reduce page load time -->
<script src="assets/js/jquery-1.8.2.min.js"></script>
<script src="assets/jquery-slimScroll/jquery-ui-1.9.2.custom.min.js"></script>

        App.init();
    });
</script>
<!-- END JAVASCRIPTS -->
</body>
<!-- END BODY -->
</html>
```

Configuration and Customization

How to change theme color ?

To change theme color from default to selected theme color(e.g: red color theme):

Change following html code:

```
<link href="assets/css/style_default.css" rel="stylesheet" id="style_color" />
```

To:

```
<link href="assets/css/style_red.css" rel="stylesheet" id="style_color" />
```

How to change sticky header to become inline header?

To disable sticky header remove "fixed-top" and "navbar-fixed-top" classes as shown below:

Change:

```
<body class="fixed-top">
```

```
<!-- BEGIN HEADER -->
```

```
<div id="header" class="navbarnavbar-inverse navbar-fixed-top">
```

To:

```
<body>
```

```
<!-- BEGIN HEADER -->
```

```
<div id="header" class="navbarnavbar-inverse ">
```

How to enable metro style components ?

To enable metro style components, include `style_metro.css` file as shown below:

```
<link href="assets/css/style.css" rel="stylesheet" />
```

```
<link href="assets/css/style_responsive.css" rel="stylesheet" />
```

```
<link href="assets/css/style_default.css" rel="stylesheet" id="style_color"/>
```

```
<link href="assets/css/style_metro.css" rel="stylesheet"/>
```

How to modify top bar menu items ?

To add or modify top bar menu items, refer to HTML code commented with `<!-- BEGIN TOP NAVIGATION MENU -->`

How to modify sidebar menu items ?

To add or modify sidebar main menu items, refer to HTML code commented with `<!-- BEGIN PAGE CONTENT`
